

ALPINE SMITH, Inc.

Holder Tractors with Pronovost or ZAUGG Snowblowers

HOLDER Tractor

Beat the Seasons with this Winter Workhorse! The C9.92 offers the traction, power and maneuverability to easily deal with winter's harsh working conditions. Advanced stabilization design, low center of gravity and optional weight transfer over the wheels provide superior traction and the ability to power through the snow. You'll appreciate the reliability, control and power of the C9.92's mechanical PTO. The articulated chassis and dual cylinder steering provide superior maneuverability to navigate in and around driveways and pathways, poles/posts and parked cars. Get the HOLDER Advantage today!

Alpine Smith, Inc. offers two powerful snowblowers to combine with your tractor purchase.

ZAUGG Snowblowers

Zaugg designs a large selection of snow blower attachments for any size of vehicle and any amount of snow, from the 2.6 ft wide SF40 Blower to the 11.5 ft wide SF110 Blower, as well as the massive 572 hp Monobloc for loader mounting. They can be mounted on any size of vehicle ranging from a walk behind small blower to large tractors, wheel loaders, and maintenance vehicles. Zaugg's state of the art engineering make these blowers dependable and able to move large amounts of snow in a short amount of time.

PRONOVOST Snowblowers

The high level of manufacturing and performance standards assures you of owning superior and advanced equipment. 33 models available from 54" to 104" of working width for 18HP to 150HP tractor. Years of research, development and intensive testing resulted in snowblowers with characteristics clearly reflecting Pronovost leadership in snowblowing equipment.
